Content Creation Prompts

Leverage AI to supercharge your content creation process from initial concept to final publication. These prompts help you overcome writer's block, generate fresh ideas, and adapt content for different platforms and audiences.

Brainstorming Ideas

- *Suggest 10 blog post ideas on [topic] for our blog [link].*
- *List trending topics in the niche [niche] that I can cover in my next post.*
- *Suggest competitive products for our product [product] to help our product stand out.*

Drafting Content

- *Draft a 1,000+ word blog post on [topic] using conversational tone of voice and aligning with my brand [website/brand].*
- *Create highly engaging Facebook posts to promote product launch for [product] for [audience].*
- *Craft a monthly newsletter for [audience] covering [topic 1], [topic 2], and [topic 3].*

Promoting Content

- *Let me know the best time to send newsletter for my audience [audience information] on [topic].*
- *Make a script for a 30-second ad for [product] using a conversational tone and add humor to appeal to [audience].*

Repurposing Content

- *Turn the blog post [link] into a video script.*
- *Suggest how to repurpose a white paper into a series of blog articles [number of articles].*
- *Turn these research findings [link] into engaging social media posts for [platforms].*

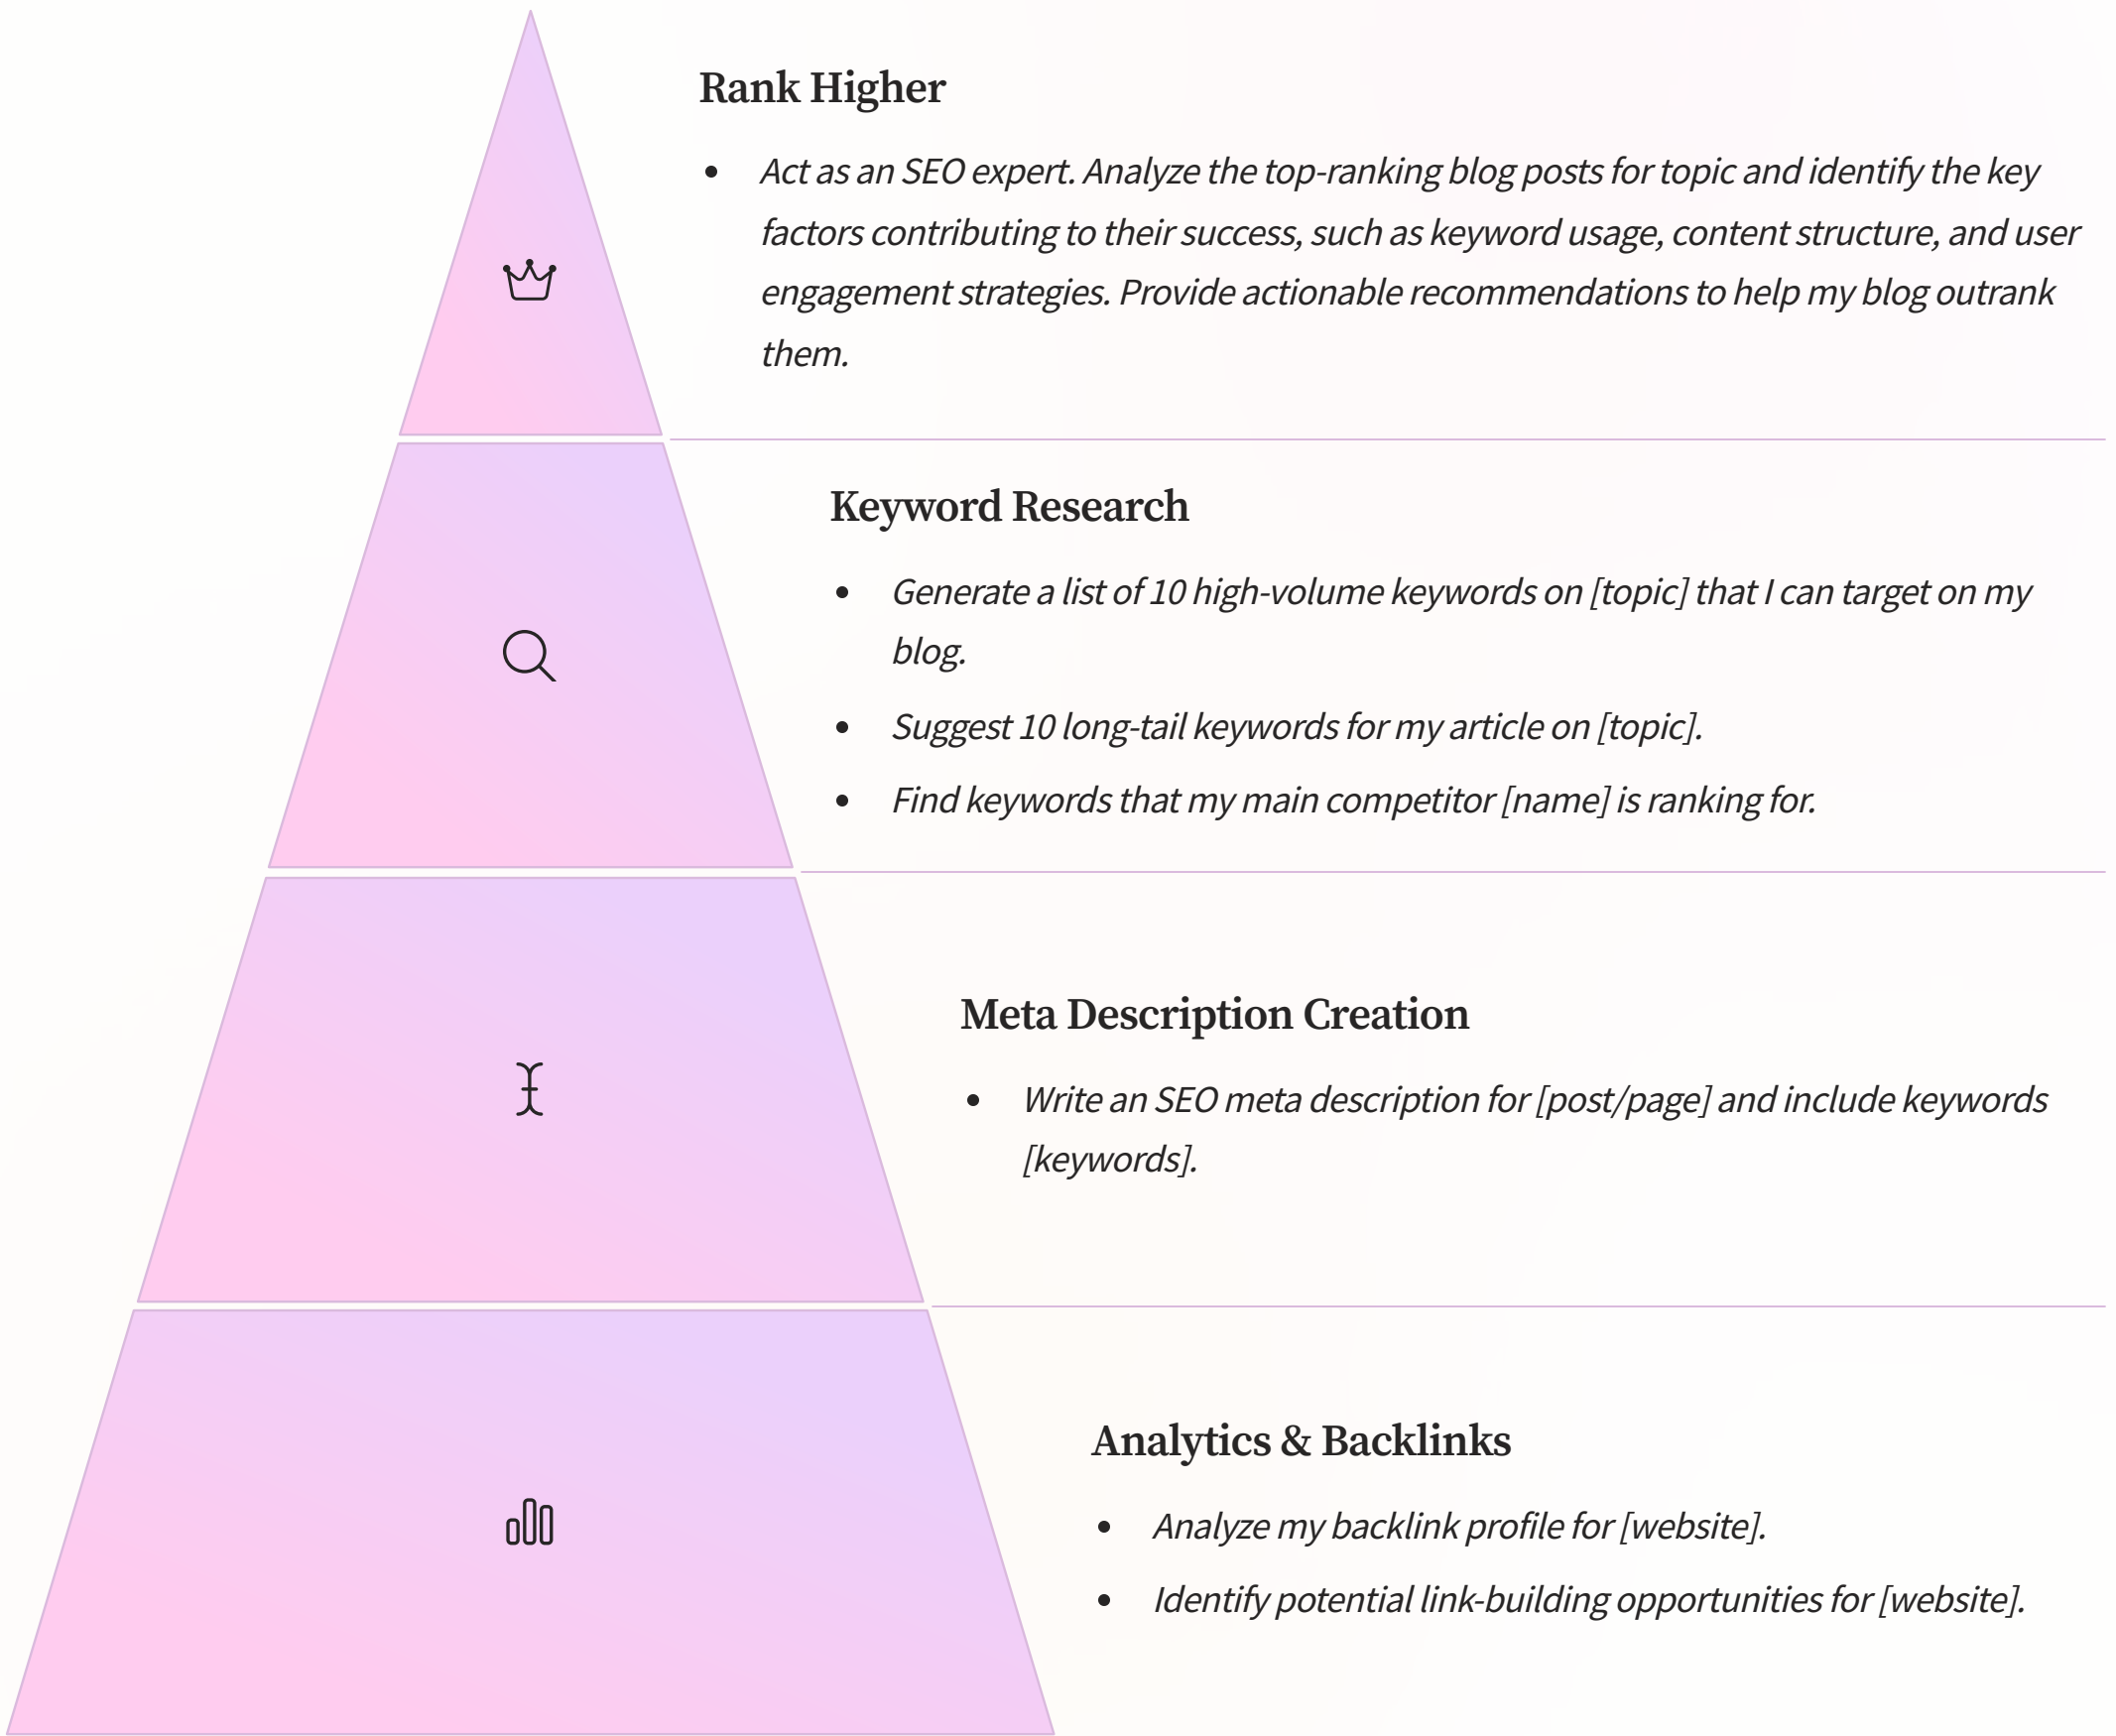

Guest posting

- *Write a pitch for guest post outreach for [blog] and highlight my authority in [topic] and potential impact for their [audience].*

By using these specialized prompts, you can maintain a consistent content pipeline while significantly reducing the time spent on ideation and drafting. Test different variations to find what works best for your specific audience and content goals.

SEO Optimization Prompts

Drive organic traffic to your website with these powerful SEO-focused prompts. From discovering high-value keywords to analyzing backlink profiles, these prompts help you optimize your content for better search engine visibility.

Once you've identified your target keywords, create optimized meta descriptions with the prompt "Write an SEO meta description for [post/page] and include keywords [keywords]." This improves click-through rates from search results pages and strengthens your keyword relevance signals.

Marketing Research Prompts

Make data-driven marketing decisions with these research-oriented prompts. From customer feedback analysis to competitive intelligence, these prompts help you understand your market position and identify growth opportunities.

Feedback Analysis

- Summarize common points from customer feedback [link].
- List five most common pain points mentioned by our customers in their reviews [link].
- Run a sentiment analysis on [social platform] to understand how the audience is satisfied with our service.

Buyer Research

- Create a buyer persona for the target market of [brand], including their demographics and purchase behavior.
- Segment my target audience based on their browsing and purchase history.
- List potential audience segments that might want to buy my service and give tips how to reach them.

Ad Creation & Lead Generation

- Give me three ad copy options for [campaign] and target [audience].
- List visual elements that will make ads for [brand/campaign] more compelling.
- Suggest three new strategies to generate leads in [niche] for [website/brand].
- Suggest new channels to promote [product/service] to [audience] in addition to [current channels].

Email Marketing

- Write an outline for my monthly newsletter for [audience]. Make sure to include an intro, main body, and a conclusion. Add a CTA.
- Create a cold outreach email to potential customers about [product].
- List common reasons customers unsubscribe from newsletter.
- Make an email marketing funnel for [audience] and [product].
- Suggest three catchy email subject lines for my monthly newsletter on [topic].

Competitive analysis is crucial for positioning your brand effectively. Use the prompt "Run a SWOT analysis of the main competitors for [brand]" to identify competitive advantages and potential threats in your market landscape.
